**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 17 April 2004.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 1-19 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☐ Claim(s) \_\_\_\_\_ is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☒ Claim(s) 1-19 are subject to restriction and/or election requirement.

**Application Papers**

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
     Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
     Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

## DETAILED ACTION

### *Election/Restrictions*

This application contains claims directed to the following patentably distinct species: different combination of compounds forming first layer and /or second layer of claimed composite.

1. Applicant should elect one of the following chemical compounds are forming the first layer of claimed composite:

- a. Polythiophene and substituted Polythiophenes.
- b. Polypyrrole and substituted Polypyrrole.
- c. Polyaniline and substituted Polyaniline.

The species are independent or distinct because of different chemical structure.

d. If Applicant choose to elect option (a): Polythiophene and substituted Polythiophenes, than Applicant also should elect one specific chemical group from list in claim.3 representing R1 chemical groups.

e. If Applicant choose to elect option (b): Polypyrrole and substituted Polypyrrole, than Applicant also should elect one specific chemical group for R1 and R2 from list in claim 4, representing possible R1 and R2 chemical groups.

f. If Applicant choose to elect option (c): Polyaniline and substituted Polyaniline , than Applicant also should elect one specific chemical group for R3 from list in claim 5, representing possible R3 chemical groups.

2. Applicant should elect one of the following chemical compounds are forming the second layer of claimed composite, where acids or salts are selected from:

- a. Colloid-forming polymeric acid.
- b. Salt of colloid-forming polymeric acid
- c. Non-polymeric fluorinated organic acid.
- d. Salt of Non-polymeric fluorinated organic acid.

The species are independent or distinct because of different chemical structure.

For any options elected (2a, 2b, 2c or 2d), Applicant should further elect single specific compound from all possible compounds representing the second layer compounds from all claims describing the second layer compounds.

3. Further for the electronic device, Applicant should elect specific device from claims directed to distinct species selected from devices recited in Claims 18 and 19.

The species are independent or distinct because of different structure of claimed devices.

Claim 1, 2, 16 and 17 are generic. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. Applicant is also required to select an ultimate species: specific compound forming first layer, specific compound forming second layer and specific electronic device. An argument that a claim is allowable or

that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is further advised that language in Claim 17 should be corrected:

Reference to unnumbered claim.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions

Art Unit: 1774

unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gennadiy Mesh whose telephone number is (571) 272 2901. The examiner can normally be reached on 8a.m - 4 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached on (571) 272 3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
